WORK SUMMARY

Result-oriented software developer with over 5 years of experience in building scalable web applications and leading automation and AI/ML projects. Proven expertise in .NET Core, Python, and React, with a focus on streamlining operations and delivering high-impact, data-driven solutions. Demonstrated leadership in managing team and driving project success, reducing operational inefficiencies by up to 70% through automation.

EXPERIENCE

May 2019 - Present

Collabera Digital | Gujarat, India

Team Lead - Software Developer

- Led AI and ML projects, driving innovation and delivering enterprise-level solutions.
- Developed LLM-based features providing document insights, OCR capabilities, and multi-document retrieval-augmented generation (RAG).
- Architected scalable, multi-tier web applications using React and .NET Core APIs, enhancing system performance.
- Automated repetitive tasks with Python, Selenium and VBA scripts, reducing manual efforts by 80% and saving significant man-hours.

Software Developer - May 2019 - April 2022

- Led the development of multi-tier applications using C#, .NET Core, ASP.NET MVC, and SQL Server, integrating advanced conversational interfaces via Dialogflow.
- Engineered automation solutions with VBA and Selenium, significantly reducing manual tasks and improving operational efficiency.
- Developed and maintained full-stack web applications with HTML, CSS, JavaScript, and C#, incorporating web scraping for data extraction and analysis.

IT SKILLS

- **Programming Languages:** C#, VBA, Python, SQL, JavaScript
- **Data Science & Machine Learning:** TensorFlow, PyTorch, Sklearn, Pandas, NumPy, Spacy, Matplotlib
- **Web:** React, ASP.Net, .NET Core MVC, .NET Core WebAPI, Restful API, AJAX, JQuery, Microservices
- **Database:** MSSQL, MYSQL
- **Tools & Technologies:** Entity Framework, Azure, Git, ChatGPT, Llama

PROJECTS

RecruitEase

Built an Applicant Tracking System to automate candidate sourcing, tracking, and evaluation, improving HR workflows with real-time analytics and reporting.

Sync Payroll

Manage payroll for multiple teams with a single, streamlined enterprise solution.

Gen-Assist

Your one-stop shop for AI-powered document, website, and resume tools.

Multiple Process Automation

Digital signature tool, process solutions by using selenium to interact with multiple websites and created VBA scripts for automating internal processes to improve operational efficiency.

EDUCATION

2017 - 2019 | Navrachna University

MSc In Information Technology

2013 - 2015 | Saurashtra University

Bachelor of Computer Application

CERTIFICATION

Artificial Intelligence With Machine Learning

Ministry of MSME

Machine Learning A-Z: AI, Python
Udemy

CONTRIBUTION

- Resume Parser w/ **Spacy NLP**
- ImageInsight LLM

SKILLS

- Leadership
- Team Collaboration
- Problem Solving
- Time Management

LANGUAGES

- English
- Hindi
- Gujarati
