PROFILE INFO

Results-oriented software developer with over 5 years of experience in building scalable web applications and leading automation and AI/ML projects. Proven expertise in .NET Core, Python, and React, with a focus on streamlining operations and delivering high-impact, data-driven solutions. Demonstrated leadership in managing team and driving project success, reducing operational inefficiencies by up to 70% through automation.

EXPERIENCE

Jan 2019 - PRESENT

Collabera Digital | Gujarat, India

Team Lead - Software Developer

- Led AI and ML projects, driving innovation and delivering enterprise-level solutions.
- Architected scalable, multi-tier web applications using React and .NET Core APIs, enhancing system performance.
- Developed Python and VBA automation scripts, boosting efficiency by 60% and reducing manual work.
- Automated repetitive tasks with C# and Selenium, reducing manual effort by 70% and saving significant hours weekly.

Software Developer - May 2019 - April 2022

- Led the development of multi-tier applications using C#, .NET Core, ASP.NET MVC, and SQL Server, integrating advanced conversational interfaces via Dialogflow.
- Engineered automation solutions with VBA and Selenium, significantly reducing manual tasks and improving operational efficiency.
- Developed and maintained full-stack web applications with HTML, CSS, JavaScript, and C#, incorporating web scraping for data extraction and analysis.

IT SKILLS

- **Programming Languages:** C#, VBA, Python, SQL, JavaScript
- **Data Science & Machine Learning:** TensorFlow, Keras, PyTorch, Sklearn, Pandas, NumPy, Spacy, Matplotlib
- **Web:** React, ASP.Net, .NET Core MVC, .NET Core Web API
- **Database:** MSSQL, MYSQL
- **Tools & Technologies:** Azure, Git, Jupyter, Dialogflow, ChatGPT, Llama

PROJECTS

Gen-Assist

Your one-stop shop for AI-powered document, website, and resume tools.

Payroll Suite

Manage payroll for multiple teams with a single, streamlined enterprise solution.

Multiple Process Automation

Digital signature tool, process solutions by using selenium to interact with multiple websites and created VBA scripts for automating internal processes to improve operational efficiency.

EDUCATION

2017 - 2019 | Navrachna University
MSc In Information Technology

2013 - 2015 | Saurashtra University
Bachelor of Computer Application

CERTIFICATION

Artificial Intelligence With Machine Learning

Ministry of MSME

Machine Learning A-Z: AI, Python
Udemy

CONTRIBUTION

- Resume Parser w/ **Spacy NLP**
- ImageInsight LLM

SKILLS

- Leadership
- Team Collaboration
- Problem Solving
- Time Management

LANGUAGES

- English
- Hindi
- Gujarati
